

THE STRENGTH WITHIN

**BAILEY<sup>®</sup>**  
METAL PRODUCTS LIMITED

## PRODUCTS

Our wide selection of products and systems are designed to offer flexibility and choice without compromising on quality and high standards. Bailey stocks all your drywall framing, trim, and structural needs.

## PROCESSING

Steel service centers and a variety of metal and industrial product markets have come to trust Bailey Metal Processing for their coil slitting and related metal processing services. With two processing facilities strategically located across the country to better serve the Canadian marketplace, we're committed to providing our customers with a range of processing services at great value.

## SERVICES & CAPABILITIES

Everyday Bailey employees serve customers across Canada providing service that meets the exacting standards of our customers. Through facilities housing state of the art equipment, along with our highly skilled operators and technicians, we create innovative, high quality products that meet or exceed all applicable industry codes and standards. The inkjet stamp of approval our products exhibit, guarantees the quality and code compliancy we are known for in the industry.

Our number one priority is customer satisfaction. At Bailey we pride ourselves on providing exceptional service. Bailey strives to ensure that our distribution and transportation capabilities are designed to deliver the results our customers demand; quality materials and services, when you need them.

Taking pride in both our products and our industry, Bailey employees are recognized by countless associations and institutes within the steel product and design community.

**Our team stands ready to provide products and technical support that meet your building team's needs. We love to collaborate to satisfy your sound, structural or other performance requirements.**

## HISTORY

Founded in 1950 by Sam Bailey, Bailey Metal Products Ltd.

is a family owned and operated Canadian company.

The Bailey Group of Companies is recognized as the industry leader, offering building solutions to both the commercial framing and drywall finishing residential markets.

With eight locations across Canada, our manufacturing capacity and national presence ensures that our customers, across the country, have the products they require quickly. Bailey production facilities are strategically located within 500 miles of 90% of Canadian job sites. We constantly work to deliver high quality, innovative and valuable products. Servicing contractors and builders is our long-standing and enduring commitment.

## WHY BUILD WITH STEEL?

- Strong
- 100% Non-combustible and recyclable
- Will not rot, support mould, or feed insects and vermin (insect proof)
- Consistently square corners and straight walls; manufactured precision in every piece
- No warping, shrinking, twisting or nail pops
